## FREDERICK COUNTY FY2024 POS ANNUAL PROGRAM

### INTRODUCTION

Frederick County begins the POS Annual Program process by splitting both acquisition and development funding 50/50 between municipal and county projects. The municipalities submitted completed annual program forms to the Frederick County Division of Parks and Recreation Office (See attached sample blank form). The annual program forms and a summary are forwarded to a municipal ad hoc committee composed of elected officials. By way of an in-person meeting on June 6, 2023 the municipal leaders voted to allocate funding to the projects as noted on the attached sheet indicating the approved funding allocations for the municipalities.

County staff utilizes the information from the annual program forms and the funding priorities to complete the municipal portion of the Annual Program. Since Frederick County normally executes much larger projects, it usually allocates its entire share to partially fund an acquisition project and/or a development project. These projects are generally designated as top priorities in its Capital Improvements Program (CIP). All figures shown include FY2023 funds.

Frederick County Staff completed and presented the 2022 Land Preservation, Parks and Recreation Plan (LPPRP) to the Maryland Department of Natural Resources in July 2022. Frederick County has addressed the Departments' concerns and has fulfilled all the major requirements of the 2022 LPPRP guidelines, including a detailed proximity analysis with a discussion of results and comprehensive maps. The Departments note that the 2022 LPPRP indicates that Frederick County has met its land acquisition goals. By meeting this goal Frederick County will now dedicate a minimum of 25% of the FY2024 POS allocation towards parkland acquisition projects, with the remainder 75% available for park development projects. In addition, FY2024 Park Development Projects will only be eligible for 90% of the final construction costs, in accordance with POS statute.

All of the FY2024 Annual Program projects address the following policies and meet the needs of the 2022 LPPRP in varying degrees:

- Develop the County's park system with a balance of active parks that focus on a variety of recreational uses and passive parks that focus on less intensive uses such as trails, picnicking, historic preservation or natural resource protection.
- Consider stream corridors within community growth areas for development as public linear parks to allow for greenway/trail linkages both within and between community growth areas.
- Development of parks in a manner that is sensitive to and protective of natural resource and environmentally sensitive features.
- Coordinate with the municipalities in the provision of park and recreation facilities.
- Develop parks in a manner that prioritizes the preservation of archaeological and historic sites and structures.
- Integrate community parks into community growth areas to maximize bicycle and pedestrian access, and enhance community identity.
- Prioritize funding to accommodate land acquisition for land banking of new sites, and for the expansion of existing parks.
- To the extent feasible, distribute public facilities and services throughout the County on a local, regional or centralized basis.
- Maintain adequacy of public facilities and services relative to existing and projected targeted population.

Name of Municipal	Found on Project Information Form							
Frederick County	<p><u>Ballenger Creek Park Rehabilitation</u> Ballenger Creek Park is adjacent to a dense residential community and is only two miles south of the City of Frederick. This rehabilitation project would include interior and exterior improvements to two existing Parks and Recreation owned residential buildings (one of which is detailed in acquisition project 7256-10-455) and current Maintenance Shop in the park, improving access roads and providing multiuse trails, parking areas, addressing ADA needs, restroom facilities, required utilities, storm water mitigation, landscaping and park amenities. By making these improvements and updates to the buildings/shop area and surrounding grounds, Frederick County Parks and Recreation is hoping to provide additional and much needed recreational opportunities, events and facilities at this regional park</p> <p>unknown</p>				2,786,440.50	1,814,070.00	972,370.50	-

City of Frederick	<p><u>Westside Regional Park Little League Baseball Field</u> The proposed little league field would be situate on the west side of the property adjacent to Butterfly Lane and Contender Way. It would replace the flood damaged field located in Baker Park. Working in partnership with American Little League, the field would meet the needs of the community in creating inclusive recreation opportunities. The project is keeping with the 2020 Comprehensive Plan, the Parks Master Plan, and the initiative within the department to add new and accessible infrastructure in our parks.</p>				115,000.00	53,000.00	62,000.00	-
Emmitsburg	<p><u>Rainbow Lake Multi-User Trail Improvements</u> The Red Trail has been classified as a priority project by the town. The trail loop, access trail (2.8mi long) is currently impassable and in desperate need of improvement due to trail damage from forestry work. This project would redesign the trail loop, relocating and increasing the trail to an over all 3mi trail. Funds from project would also be used to purchase kiosk bulletin boards for each trail head and transition point.</p> <p><u>Myers Community Park Improvement</u> This project will be constructing two "small" 10 x 12 foot picnic pavilion at the north and south end of the accessible playground. Myersville	<u>Bullivant Park Amenities</u> This park is situated between a small neighborhood and commercial center at the southern end of Town, includes a recently completed hiker/biker trail through the linear wooded area which serves as part of the Myersville Greenway Trail system. The initial phase of this project will include installation of amenities along the trail. The Town is concluding an acquisition of adjoining land to add to the park, which will increase the overall park area from 38 to nearly 100 acres of both passive and active recreational use. The larger portion of this initial funding will be used toward development of the larger amenity scope of the park with extension of the trail system into the park area.	3.77			141,000.00	14,000.00	127,000.00	-
